

Architectural Plans - Scanning & Printing

We can scan from A5 sized documents right upto A0!

Large format document scanning has started to become a necessity for companies and institutions, who possess large drawings, plans and blueprints. We can convert them to a smaller, digital file format, therefore saving room and improving the way those documents can be worked with. If you are looking to have your drawings scanned to TIFF, PDF, JPEG format bring it to Kristal and be amazed by the professional quality scans that you get back from your drawings!
