

Metallic Paper - Prints

The unique silver based Metallic Paper from PermaJet! - Titanium Lustre has a beautiful pronounced textured finish on a heavyweight 280gsm silver resin coated base. A photo paper truly resembling the look, feel and print quality of a metallic surface with its high silver pigment content. The base of Titanium really does look like silver!! Incredible detail and clarity is achievable delivering stunning high resolution visual impact and making your images just jump off the paper. Its great tonal range, wide colour gamut and high D-max works extremely well with images that have vibrant colours, deep blacks or containing reflective metal surfaces such as chrome, silver or even gold! Everyday objects such as watches, jewellery, glass, metalwork and mirrors come to life with almost a 3D effect as well as enhancing water reflections and other surfaces.

Artwork Capture

We will digitally capture your artwork, which can be repurposed for any reprographic service you may need, now and in the future. Whether that be for postcards, limited editions, book project, or your website, rest assured our art capture will show your artwork faithful to the original no matter what the process. Don't let amateur photographers capture your art and compromise the quality of your art image - you will be judged by what is seen!

Additional Information for Photographic Copy Work & Digital Capture.

Art in Frames

It is best to bring in fine artwork unframed. We can, however, usually photograph it in the frame.

Special Artwork

We can handle all types of special artwork including un-mounted textiles, un-mounted papers, fragile originals, special reproduction sizes, metallic paint, gold leaf.

Please ask for a quote on special artwork.

Let us help you get the finest reproduction as a digital capture.

Files can be supplied as High Res Tiff, Jpegs and Website Ready sizes.

A bespoke quotation will be given on multiple quantities and/or various sizes.
